## Our Beginnings

Do you love Japanese food? We do!  
As founder and co-founders of this brand, we were even willing to pay for a nice and decent Japanese food every week, no joking, although we were only average salary earners.

Back in 2016 one day when we were having sashimi in our usual hangout Japanese restaurant, we thought of running our own Japanese restaurant! But without any financial support from any institution, we decided to use our savings and humbly open one restaurant (currently located at Bukit Indah) with the least minimum set up costs and started our adventure!

Can you believe it? We started from nothing to more than 7 outlets, as of January 2021. Not because of our capability, but we have been working really really hard (seriously, we even thought of closing down during hard times such as Covid-19 pandemic) day and night relentlessly just to deliver a fresh and nice sushi experience to you guys.

From the bottom of our hearts, thank you so much for your support and love towards Sushi House, a local homegrown Malaysian brand from a humble beginning. Arigato gozaimasu! / Thank you!

## Our Vision

To become the recognized leader in its target market for providing a healthier option of Japanese cuisine at good quality, outstanding selection of food and affordable prices.

## Our Mision

We are not just running business but we make other life better. Sushi House adopts corporate social responsibilities and strives to bring a little positive influences to the community by participating community works regularly.

All Pictures Shown are for illustration purpose only  
All prices are subject to 6% SST and 10% Service Charge

# スシ船
